

Stops Water Leaks and Prevents Chimney Crown Cracks

[Buy Online](#)

ChimneyRx® Brushable Crown Repair is a fast setting elastomeric coating that forms a flexible waterproof membrane. It's specifically formulated to repair and protect chimney crowns from water intrusion.

It stops leaks and prevents cracking and deterioration of the crown. ChimneyRx® Brushable Crown Repair is a masonry chimney crown repair product that is easy to apply with a 3" or 4" paint brush. It's very durable and requires no mixing or special bonding agents. The compounds are all solvent-free and will not harm the environment.

Long Lasting

Use this product wherever a long lasting exterior waterproof membrane is needed, such as masonry chimney crowns, chimney corbels, tops of masonry or parapet walls. Another use is for

masonry window sills where bricks are laid in a soldier pattern at the base of the window. ChimneyRx® Brushable Crown Repair can be custom colored with small amounts of standard mortar dye.

Fast Drying

The major benefits of ChimneyRx® Brushable Crown Repair are its unique water based “quick dry” technology and its great coverage rate. The product completely cures in 2-4 hours depending on the temperature and humidity. The coverage rate is approximately 40 square feet per gallon.
