Trim Products

Flexible. Versatile. Beautiful.

KOMA Trim Products introduces their Allure Collection of PVC extruded mouldings. These new profiles are produced with KOMA's unique Celuka technology, resulting in a harder, more durable moulding.

Designed to complement KOMA's existing exterior trim products, these mouldings offer flexibility, versatility and beauty to any job. The Allure Collection captures the natural look of wood, while addressing the maintenance problems associated with wood or wood composites. Able to be painted, Allure mouldings add an elegant touch to KOMA's trimboards.

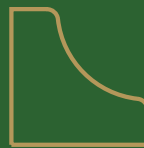

The collection begins with nine standard mouldings and four specialty accent profiles.

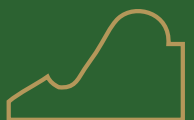

## Profiles Available

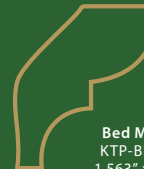

Quarter Round, 3/4" nom.  
KTP-QR2021  
0.688" x 0.69"

Scotia/Cove, 3/4"  
KTP-SC2689  
0.750" x 0.75"
